

Please call us for a quotation on fees for the following general test menus (this is not a complete list): Prices listed as ()

- Paternity testing and forensic testing performed by our accredited partnership agreements.
- Drug Testing performed by our in house separate accredited facility and recognized by the Department of Transportation.
- Lyme disease testing
- Research testing in tests that are commonly performed for diagnostic purposes for patients who must first be registered at our facility in order to participate. The following tests are offered:

Hematology: Complete CBC with a differential, Erythrocyte Sedimentation Rate (30)

Immuno hematology: Blood typing with RH status (30)

Urine Analysis: full urine chemistry with Microscopic examination (30)

Stool test: Occult blood. (50)

Blood chemistry:

- fasting or Random Glucose, sodium, potassium, chloride, BUN, Hematocrit, Hemoglobin (50)
- ACT celite (Coagulation) (50)
- ACT Kaolin (Coagulation) (50)
- Total β -hCG (Endocrinology) (50)
- BNP B-type Natriuretic Peptide (Cardiac Marker) (100)
- Lactate, pH, PCO₂, PO₂, TCO₂*, HCO₃*, Base Excess (BE)*, sO₂* * calculated (50)
- Sodium (Na), Potassium (K), Ionized Calcium (iCa), Glucose (Glu), Hematocrit (Hct), Hemoglobin* (Hgb), pH, PCO₂, PO₂, TCO₂*, HCO₃*, Base Excess (BE)*, sO₂* * calculated (100)
- CK-MB Creatine Kinase MB (50)
- Creatinine, BUN (30)
- Cardiac Troponin I (cTnI) (Cardiac Markers) (50)
- Sodium, Potassium, Hematocrit, Hemoglobin * Calculated (25)
- Anion Gap (25)
- Cholesterol, Triglycerides, HDL, LDL (25)
- ALT, AST, GGT (25)
- Protein, Albumin (25)
- Vit B 12, Vit D (50)
- Calcium, Magnesium (25)
- Testosterone, Estrogen, Progesterone, T3, T4, TSH (200)
- RA factor, CRP and CRP High Sensitivity, ANA (50)
- Markers for Lupus, sjogrens syndrome and other auto immune conditions **
- Cancer markers: PSA, CEA, CA 125, CA 15-3, CA 19-9 10 (300)
- Complete Nutritional panels for most vitamins, minerals, anti oxidants, amino acids, fatty acids **
- Total iron and ferritin (50)

Immunology:

- IgG and IgE for food sensitivity and Allergy **
- IgE for mold, dust, pets , trees, grasses and dust **
